

# COPPER ARMOR™

INTERIOR ANTI-VIRAL & ANTI-BACTERIAL\* PAINT

**KILLS 99.9% OF VIRUSES & BACTERIA\***

**EXCELLENT HIDE & DURABILITY**

**CONTINUOUSLY KILLS FOR UP TO 5 YEARS<sup>^</sup>**

**EPA REGISTERED**

**POWERED BY CORNING® GUARDIANT® ANTI-MICROBIAL COPPER ION TECHNOLOGY**

## FEATURES & BENEFITS

- This product kills 99.9% of viruses and bacteria\* helping keep interior surfaces clean from disease-causing agents.
- PPG *Copper Armor* continuously kills viruses and bacteria on the painted surface within 2 hours of exposure for up to 5 years<sup>^</sup> meaning that walls, trim and doors are continually protected against harmful microbes.
- This paint + primer carries all of the application properties of a premium paint and offers excellent hiding and durability.

## CONFORMANCE STANDARDS

0 g/L VOC<sup>†</sup> compliant in all regulated areas.

\*Kills 99.9% of bacteria *Staphylococcus aureus* (Staph), *Pseudomonas aeruginosa*, *Enterococcus faecium*, *Klebsiella pneumoniae*, *Acinetobacter baumannii*, *Enterobacter aerogenes*, Methicillin-resistant *Staphylococcus aureus* (MRSA), Vancomycin-resistant enterococci (VRE), *Escherichia Coli* (E. coli), and *Salmonella*, and viruses Feline Calicivirus and SARS CoV-2 within 2 hours of exposure to paint surfaces.

<sup>^</sup> Effective for up to 5 years based on test method "Protocol for the Evaluation of Bactericidal Activity of Antimicrobial Coated Surfaces" (MRID 51062601) as long as the integrity of the surface is maintained and is part of a comprehensive infection control and hygiene program. Cleaning agents typically used to maintain painted surfaces are permissible including multi-purpose, bleach, and peroxide cleaners. Quaternary ammonium (quats) disinfectants should be avoided.

<sup>†</sup> Colorants added to this base paint may increase VOC level significantly depending of color choice.

\*\*Including Coronavirus

PPG *Copper Armor* with Corning Guardian technology is an interior paint that kills 99.9% of Viruses and Bacteria\* on the painted surface. Providing an additional layer of protection against harmful microbes, *Copper Armor* is great for commercial spaces like hospitals, education facilities, hotels, retail, and multi-family, as well as in residential applications. This product provides excellent paint characteristics such as durability and hide, while continuously killing viruses and bacteria for up to 5 years<sup>^</sup>. PPG *Copper Armor* is a premium paint and primer in one that provides a mold and mildew resistant coating and is backed by a lifetime warranty. This product is only intended to supplement current sanitation and disinfection practices. It is not meant for use as a replacement for EPA-registered disinfectants. Continue any regular cleaning and/or disinfection practices currently in place.

### COPPER ARMOR COMPARISON DATA
