Deloitte.

Lyterati™ is the Next Generation Faculty Information System Built to Support Today's Complex Higher Education Needs

Contribution Management

Track faculty accomplishments in the areas of research, teaching, and service. Lyterati allows for seamless reporting, automatic populating of web profiles, and quick and easy activity reporting.

Annual Reporting

Configurable annual reports with support for taxonomy and narrative responses. Multi-level and flexible workflows with the ability to comment and evaluate while routing through an approval chain.
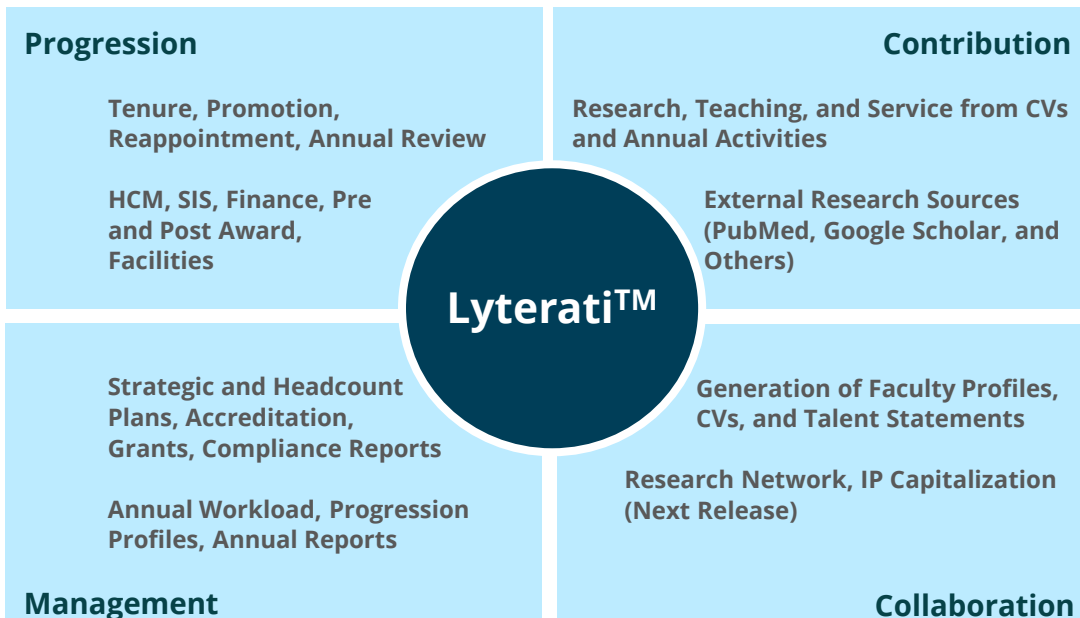

Case Management

Configurable dossier-based processes with document management. Ability to integrate committees and external reviews within the context of authorization-rules.

Web Profiles

Replacement of your static web pages with dynamic web profiles built with big data technology. Benefit from unprecedented exploration of data.

CV Maker

Built-in CV maker allows faculty to instantly create and download a summary of their information in Lyterati into a CV-like report.

Analytics

Dynamic reports, visualizations, and statistics that give insights into data and processes. Explore data using unstructured data technology.

Progression

Tenure, Promotion, Reappointment, Annual Review

HCM, SIS, Finance, Pre and Post Award, Facilities

Contribution

Research, Teaching, and Service from CVs and Annual Activities

External Research Sources (PubMed, Google Scholar, and Others)

Lyterati™

Management

Strategic and Headcount Plans, Accreditation, Grants, Compliance Reports

Annual Workload, Progression Profiles, Annual Reports

Collaboration

Generation of Faculty Profiles, CVs, and Talent Statements

Research Network, IP Capitalization (Next Release)
