

Enhanced Digital Certification

Traditional supplier certification is anything but easy or affordable. We've changed that with Enhanced Digital Certification.

Certify your suppliers' diversity and small-business statuses with our all-in-one certification, free for up to 1,000 suppliers for the first year.*

Stop Chasing Data. Start Measuring Impact.

Less than 1% of diverse suppliers are actually certified, making it difficult to accurately measure the impact of your business activities. Traditional certifications are expensive and tedious, and don't account for independent contractors.

With Enhanced Digital Certification, we've made the certification process fast and easy for suppliers so you can have the most current data for your economic impact initiatives.

Low-Cost Certification

Your first 1,000 suppliers are on us for the first year. Renewal is just \$25 for one year or \$70 for three years.

One Certification, All Categories

EDC is an all-in-one certification that certifies small, minority-, woman-, veteran-, LGBT+- and disability-owned businesses.

Quantify Your Impact

Confidently track your business activities and understand your company's economic impact.

SupplierGATEWAY has been supporting the world's leading supplier diversity and local economy initiatives since 1997. With over 5.5 million suppliers in our database, 2500+ supplier portals launched, and over \$ 437 billion in client spend analyzed, we understand how important certifiable data is to your programs. That's why we created Enhanced Digital Certification (EDC).

Understand Enhanced Digital Certification

Verified, Accurate Supplier Data

The EDC process digitally validates many aspects of the application including the applicant's business owner's identity, verification of Tax Identification Number (TIN), document verification, screening and risk evaluations including sanctions checks, Excluded Party List System (EPLS), and cross-agency data discovery.

All EDC certifications are subject to post-issuance audits.

All-In-One Certification

No need for individual certifications for different classifications. EDC certifies small businesses and all diversity classifications including minority-, woman-, veteran-, service-disabled veteran-, LGBT+, and disabled-owned businesses.

Affordable & Fast

At \$25/year or \$70/three years, it's easy to sponsor certification for your suppliers. Suppliers are certified in 3 days or less, meaning you can start measuring and accounting for your economic impact right away.
