

Assessment & Credentialing Through the E&I Contract

HelioCampus Assessment & Credentialing is a unified platform for managing institutional assessment and accreditation, planning for continuous improvement, and connecting authentic lifelong learning to help improve learner success. The platform enables easy automation of evaluation, supports individual student assessment, facilitates curriculum mapping and review, streamlines campus-wide accreditation processes, and helps collect evidence to support institutional strategic goals and mission.

HelioCampus Assessment & Credentialing is committed to standards for interoperability and maintains certifications that enable it to seamlessly integrate with other campus systems (LMS, SIS) to create efficiency and cost savings for institutions.

As institutions design digital and stackable credentials linked to workforce needs, our platform also enables colleges and universities to issue badges and other credentials which can be issued to learners via their HelioCampus Comprehensive Learner Record (CLR) or to be independently shared to social networks and employer platforms.

Students can review their achievements in their CLR, which is a verifiable, portable record. Learners can create curated portfolios by choosing key assignments linked to their program's curriculum map or upload additional evidence from outside experiences that help frame their portfolios for specific jobs and career goals.

Unified Platform for Assessment & Credentialing

	Accreditation & Planning	Outcomes Assessment	Skills & Achievements
Core Package Best for institutions looking for complete solution for program and institutional assessment, accreditation, and planning.	<ul style="list-style-type: none"> -Self-study -Program Review -Strategic Planning -Data Collection & Workflows -SIS Integrations & SSO -Comprehensive reporting 	<ul style="list-style-type: none"> -Curriculum Mapping -Learning Outcomes Assessment -Juried Assessment -Co-Curricular Assessment -Syllabus Management -LMS Integration
