AT VILLANOVA
UNIVERSITY

The Inn at Villanova University From Concept to Completion

At American Education Supply, our comprehensive sales and service team includes project management specialists and an award-winning interior design team. Our notable experience with renovations enabled our team to effectively support The Inn at Villanova University through their 56-room remodel project.

Our project management team met with Villanova officials to discuss the scope of the project and outline our scalable project capabilities.

To meet the school's distinct needs, we devised a strategic course of action that included:

- ▶ An on-site walk-through of the existing structure and analysis of project logistics and requirements
- ▶ Review of the initial plans and proposed modifications
- ▶ Hosting key project leaders on a tour of our 20,000 square foot showroom to select items for each guest room
- ▶ Engaging key suppliers to design custom products, including casegoods, artwork and HVAC units
- ▶ Furnishing a mock guest room for approval prior to the final installation phase

Our team worked closely with the university to create warm, modern and family-friendly settings that enhance the overall appeal of this property.
