Subcontract Plan Management & Reporting

Go deeper into your diverse spending. Get project plans and reporting from multiple subcontractors working on the same project and enable your primes to report their spends with diverse companies.

Supplier Gateway®

Simplify Subcontract Project Reporting.

With our Subcontract Plan Management and Reporting App, you can easily invite your primes to keep track of their own diverse and local spends on specific projects. Get a comprehensive view of diverse and local spends across multiple tiers for specific projects, set custom audit triggers, and resolve disputes directly within the system.

Grow Your Program Easily

The Subcontracting Plan Management & Reporting tool allows you to invite your primes to track and report their diverse and local spends directly.

Catalog To Any Tier Level

As long as your spend is cataloged, it can be tracked. From tier-3 to tier-n, track and report to any layer of depth.

Easily Monitor Reports

. Update project statuses and get easy-to-understand project summaries..

SupplierGateway has been supporting the world's leading supplier diversity initiatives since 1997. With over 5.5 million suppliers in our database, 2500+ supplier portals launched, and over $ 437 billion in client spend analyzed, we understand how important accurate data is to your program.
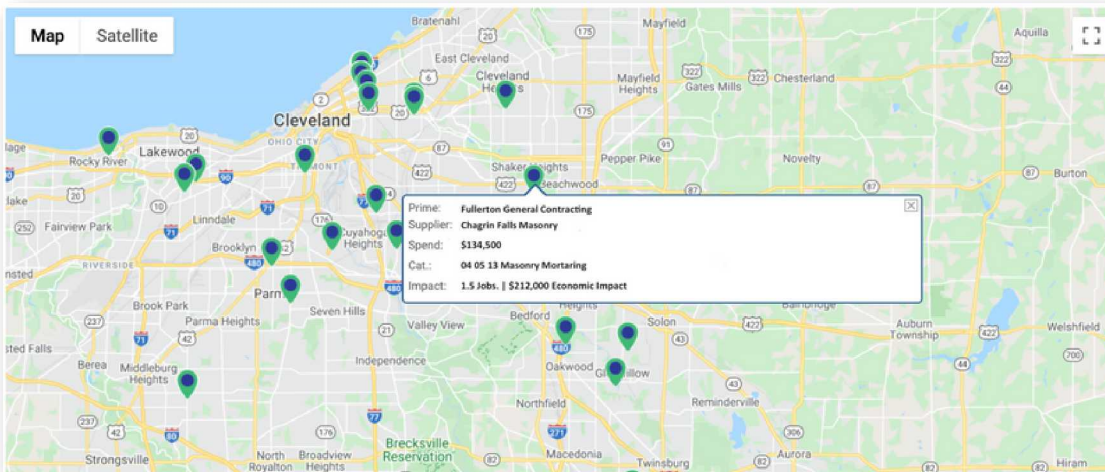

Understand Subcontract Plan Management & Reporting

Let Primes Manage Their Projects

Invite your prime developers or contractors into the system and allow them to manage their own spends and reporting with subcontractors.

Set Up Custom Audit Triggers

Set your own confidence level required to trigger an audit and require payment and other documents to be submitted.

Monitor Project Diversity Impact

Filter your reports to show impact by locale, project, diversity category, tier level, and more.

Dispute Alerts

Get notified when a subcontractor doesn't get paid correctly, and handle the dispute entirely within the system.
