

Virtual Guarding is the Solution

Virtual Guarding utilizes existing core competencies, and shifts security from a reactive to a proactive protocol, which deters crime at a fraction of the cost of traditional guarding. Virtual Guarding provides a modern physical security platform by integrating video surveillance, access control, and sensor technology with the human intelligence of licensed security officers.

The combination of state of the art monitoring technology with fully trained and licensed security guards ensures faster response times at a lower cost! Many organizations are experiencing success in stopping unwanted trespassing with our 24-7, 365 days always-on virtual guarding, all while saving money in their budget.

The Problem with Today's Security

- Security guards are costly, and wages are increasing.
- Increased COVID-19 concerns about contact and protocol.
- Security guards can't be everywhere and don't see everything.
- Only a small percentage of security video is ever observed or reviewed.

Four Steps To Get The Security You Need

How Virtual Guarding Works

Reduced Operational Costs • Safer – No Physical Contact • 24/7 Security Monitoring and Support
• Deter Crime and Trespassers Proactively • Immediate Response • Enhanced Security

 <p>Step 1 Cameras Detect Cameras stream within seconds using AI to detect potential threats. Milliseconds</p>	 <p>Step 2 Guards Analyze Remote guards can respond to potential threats instantly using customized SOP's. 5-20 Seconds</p>	 <p>Step 3 Rapid Response Remote guards engage potential criminals with two-way audio. 10-30 Seconds</p>	 <p>Step 4 Escalate As Needed On-site guards or law enforcement are dispatched. Minutes</p>

Security Features

Loitering

Keep a close watch on who enters & exits your property.

Break-In

Identify and stop forced entry before it occurs.

Vandalism

Keep potential damage away from your property.

Theft

Protect your business assets from theft.

Unwanted

Keep protected areas safe by keeping unwanted visitors away.

Unhealthy

Ensure anyone who enters does not pose a health threat.

Our Services

Virtual Guarding

- Substitute or Enhance Guard Service Anywhere
- AI Based Video Monitoring
- Event Alerting & Response
- Guest & Visitor Screening
- Audible Deterrent Or Police Dispatch
- System Health & Environmental Monitoring
- Door Ajar Monitoring
- Panic Button/Call for Help Alert and Response
- Occupancy Alert Notification
- Incident Reporting

Virtual Gatehouse

- Replace Guard In Gatehouse/ Guard Booth
- Includes All Virtual Guarding Services
- Homeowner Entry Assistance & Event Alerting
- Guest & Visitor Screening with Remote Entry
- License Plate Verification & Reporting

Virtual Package Delivery

- Virtual Screening of Authorized Delivery Services
- Virtual Unlock & Visual Monitoring of Mail Rooms & Warehouses
- Contactless Delivery & Operational Costs
- Live Event Alerting & Response During Deliveries
- Access Control with QR code or Facial Recognition

Virtual Concierge

- All Virtual Package Delivery Services & Remote Guarding Services
- Enhance Lobby Guard or Doorman
- Tenant Entry Assistance
- Live Property Event & Notification Reporting
- Direct Emergency Response or Police Dispatch
