“Starting in 2021, Texas A&M University joined forces with Batteries Plus to equip its facilities and operations teams with a diverse selection of power, lighting, and repair solutions. This collaboration allows the university to leverage the purchasing power offered by the E&I Cooperative Services agreement, resulting in substantial price reductions and improved efficiencies through the university’s e-procurement platform.

Moreover, Texas A&M University benefits from convenient on-hand inventory and flexible delivery options, such as store pickup and curbside services. The best part is all these valuable services are provided by the local Batteries Plus store, a Texas Historically Underutilized Business (HUB).”

Robby Bounds
Executive Director | Procurement Services
Texas A&M University

Scenario

Thanks to the E&I contract (Contract Number: CNR01505), Texas A&M University was able to save over 37% off the retail price on these key items.

1.5V AA LITHIUM Battery

Energizer Ultimate Lithium is the #1 longest-lasting AA battery in high tech devices. It lasts up to 7x longer than an equivalent alkaline battery and holds power for 20 years in storage.

T8 Fluorescent Bulb

T8 technology lasts longer than T12 and has better lumen maintenance.

1.5V ALKALINE AAA Battery

Rayovac UltraPro AAA alkaline batteries are engineered for high use professional equipment such as flashlights, cameras, clocks, wireless devices & more. Plus, they hold power for up to 10 years in storage.

1.5V ALKALINE AA Battery

Rayovac AA alkaline batteries are engineered for high use professional equipment and hold power for up to 10 years in storage.

SLA12-7F

This AGM battery is ideal for emergency lighting, UPS backups, data centers and fire & security applications. It is completely sealed, spill-proof and features F1, T1 and Faston .187 terminals.

12V 100Ah AGM Deep Cycle Battery

This AGM dual purpose battery is an ideal fit for vehicles with multiple power demands. It features 100% starting and 100% reserve power, can be installed in any orientation (except inverted) and charges up to 5 times faster than traditional batteries.

12V 750 CCA FLOODED SLI Battery

This premium Ultra Gold Duracell battery features a maintenance-free design and 750 cold cranking amps to start your vehicle’s engine year round.
