

Cornerstone for Higher Education

Cornerstone Datasheet

Elevate how faculty and staff learn, create, and deliver the best education.

High attrition rates, budget cuts, and rising enrollment costs require HR leaders to stay nimble- while today's workforce prioritizes flexibility and higher wages over health, retirement, and longevity benefits.

“

Our old, outdated database was replaced by an actual LMS, making our work more efficient and effective. This efficiency enables us to focus attention on partnering with department heads and administrators on developing much-needed internally developed eLearning content and expanding LMS usage to our campus HR partners.

— Dr. Ron Tredway

Executive Director HR/Employee & Organizational Development, University of Tennessee

With Cornerstone's talent management software, you can provide your people with modern skills training, career pathing, and continuous feedback to find rewarding success at your organization.

Empower your people to deliver the best education to your students with:

- ✦ Individualized development programs
- ✦ Qualified hiring support
- ✦ Improved ROI by eliminating outdated and disparate technology
- ✦ Supportive continuous learning environments
- ✦ Personalized growth opportunities

Proudly trusted by **300** of the nation's largest higher education institutions
