

THE FERGUSON / E&I ADVANTAGE

Depth and breadth of plumbing products, unparalleled service and the industry's most experienced associates

In business for over 60 years, Ferguson is the largest supplier of plumbing related construction and maintenance products and services. We serve the educational and institutional markets with broad capabilities to meet our customers' needs. Our dedicated Institutional Team is focused on providing the products and services required by many different customer segments including facility managers, maintenance supervisors, contracting officers, procurement buyers and assistants.

PRODUCTS YOU WANT

Ferguson is a national fulfillment partner for many brands that you know and trust – Kohler, Moen, Delta, Elkay, Zurn, American Standard, Whirlpool, Honeywell, NuCalgon and Speakman.

GREEN SOLUTIONS & WATER CONSERVATION

Ferguson supports our customers' needs for environmentally-friendly products and strives to become their premier supplier of Green Solutions. Our success has been nationally recognized in the presentation of the EPA WaterSense Distributor Partner of the Year Award. Ask us about our products that support your organization's sustainability goals.

Our Commercial Water Heater Program exemplifies Ferguson's efforts to provide educational customers with 24/7* coverage for their hot water needs. Extensive inventory of commercial water heaters is maintained at our local branches and are ready to be deployed for customer emergencies. We partner with local commercial plumbers to address any hot water heater problems at any time.

*2-4 hours for outlying areas. 24/7 delivery services is available in most cities throughout the U.S. Water Heater brands and Express Response varies by market. Contact your local branch or call (855) 232-0025 to find out if the service is available in your area.

INVENTORY CONTROL AND MANAGEMENT

Minimize your inventory management time with our convenient bar codes and scanner options. Our customized bar coded bin labels provided you with your item code, description, min/max settings and logo.

BENEFITS INCLUDE:

- Counting and valuing your warehouse or stock room
- Elimination of order entry errors
- Creating batch orders
- Reduced order processing cost
- Improved productivity

Reordering involves simply entering the quantity and scanning the items you need. Then, download the list of items from the scanner to your computer and upload the list to your online shopping cart. You can then view real-time pricing and availability. It's simple, efficient and convenient.
