

PKA Technologies, a Nationally Certified Women Owned Business, is excited to announce we are now a business partner with E&I Cooperative Services!

With over 25 years of experience, PKA Technologies offers a comprehensive range of services, including cloud computing, data backup and recovery, and IT consulting. We specialize in K-12 schools and higher education providing customized solutions tailored to the unique needs of each client.

Our commitment to delivering exceptional service and innovative solutions has earned us a reputation as a trusted partner for businesses looking to leverage technology to drive growth and success. Our mission is to empower schools by providing robust, scalable, and secure IT infrastructure.

Whether you're looking to upgrade your network, enhance your cybersecurity, or streamline your IT operations, we have the expertise and partnerships to help you succeed.

What does this mean to you? K-12 and higher education can expect significant cost savings, time savings in the procurement process, and access to a full suite of solutions and services that are tailored to deliver the outcomes you and your stakeholders need.

We would be thrilled to explore how PKA Technologies can help your school achieve its IT goals. Contact us at Eandi@pkatech.com for further details.
