

WESTERN REGION

COMPANY DESCRIPTION

Utilizing over 41 years of actuarial data, industry experience and engineering resources, SU Group provides tailored programs offering customized solutions for maintaining equipment. SU delivers the most innovative, flexible, and comprehensive equipment maintenance management program (EMMP) available today. Our program converts eligible contracts into one easily manageable agreement saving you valuable time and money while assuming the financial risk. Consistency, convenience, control, and cost reduction are only some of the many features our clients benefit from.
