

## Client Testimonials| Title IX and Related

“ATIXA never fails in delivering informative courses that are easy to comprehend, given the content. The ATIXA presenters gave practical examples and answered individual questions from the audience. This made the courses feel more interactive (which with courses taken outside of ATIXA it felt like presenters were just “checking off a box” with their PowerPoint slides in getting through the trainings). Well, done, ATIXA team!”

“ATIXA’s trainings and resources have been invaluable to me during my first year as Title IX Coordinator for a large K-12 school district. I will continue to recommend ATIXA’s trainings and resources to those in other school districts.”
